

CHURCH PLANTING

Partnering with
indigenous church-
planters to spread the
gospel among hard-
to-reach peoples

crescentproject.org/planting

Crescent Project seeks to plant churches among hard-to-reach peoples (Muslims) in underreached places (Muslim-dominant arenas) — UPG Muslims in India (200m), Indonesia (231m), Pakistan (213m), and Bangladesh (214m) — four countries that comprise 50% of the world's Muslims. We find where God is already moving and determine if we can come alongside that effort.
